

27/06/2022

Dear valued customer,

I am writing to you in relation to the availability of Atorvastatin from Pinewood. We are currently selling our way through our stock holding of Atorvastatin Wockhardt and we estimate we will exhaust this stock very soon. The table below depicts the timelines and the depletion dates based on our current usage.

Product Name	Bar Code	IPU Code	G.M.S Code	Depletion Date
Atorvastatin 10mg (WUK)	50-12727-907215	50-99627-197366	42020	30/06/2022
Atorvastatin 20mg (WUK)	50-12727-907222	50-99627-197397	42021	29/07/2022
Atorvastatin 40mg (WUK)	50-12727-907239	50-99627-197403	42022	13/08/2022
Atorvastatin 80mg (WUK)	50-12727-907246	50-99627-197410	42023	27/08/2022

Once this stock is exhausted we will transition to Atorvastatin Pinewood which is on site in Ballymount. All existing prices have been captured on the system for the new livery and the IPU codes and G.M.S codes will remain the same as the existing presentation. In fact the only difference in the new livery is the GTIN code (Barcode) and a slight change to the artwork on the outer packaging depicting the Pinewood name and logo. The product is being sourced from the same supplier.

One very important note if you order Atorvastatin WUK using McLernon's D.O.E tele-ordering platform and it is deemed to be out of stock on your system please search for **Atorvastatin Pinewood** in the drop-down order box, select this and order this product as this will permit continuity of supply. The table below depicts the information you will require.

Product Name	Bar Code	IPU Code	G.M.S Code
Atorvastatin 10mg PW	50-99186-007830	50-99627-197366	42020
Atorvastatin 20mg PW	50-99186-007847	50-99627-197397	42021
Atorvastatin 40mg PW	50-99186-007854	50-99627-197403	42022
Atorvastatin 80mg PW	50-99186-007861	50-99627-197410	42023
